

# **Install Microsoft™ SQL** **Server Express 2005**

Instructor Led Training  
Chapter 2 – Exercise D

Topics include:

- [Install Microsoft SQL Express 2005](#)

## ***Install Microsoft SQL Server Express 2005***

1. Close all other applications on the server prior to beginning the SQL Server Express 2005 installation.
2. Insert the Equitrac Training CD, if you have not already done so.
3. If you are installing on a virtual server, ensure that the virtual server window is NOT maximized; resize the window if needed.
4. Start the CD.

**NOTE:** If the main page of the Equitrac Training CD does not appear, double-click the **My Computer** icon, double-click the CD drive labeled **EEEE04ILT**, and then double-click the **Start.html** file; the CD starts.

5. Click the release of Equitrac to be installed; the Equitrac installation page appears.

**NOTE:** If a warning message appears regarding activity that could harm your computer, click the  button.

6. On the Equitrac installation page, click **Install SQL Server Express**.
7. In the File Download – Security Warning dialog box, click the  button.
8. In the Internet Explorer – Security Warning dialog box, click the  button; an Extracting Files dialog box appears.
9. In the End User Licensing Agreement dialog box, click the **I accept the Licensing terms and conditions** option, and then click the  button.
10. In the Installing Prerequisites dialog box, click the  button.
11. When the required components are successfully installed, and the  button becomes available, click the  button.
12. In the Welcome to the Microsoft SQL Server Installation Wizard dialog box appears, click the  button.
13. In the System Configuration Check dialog box, click the  button.
14. In the Registration Information dialog box, type **Student** in the Name field and **Equitrac** in the Company field. Leave the **Hide Advanced Configuration options** check box selected.

15. Click the  button.

16. In the Feature Selection dialog box, click the  button; leave all defaults as displayed.

17. In the Authentication Mode dialog box, ensure **Windows Authentication** mode is selected; click the  button.

18. In the Configuration Options dialog box, ensure that **Enable User Instances** is selected and that the **Add user to the SQL Server Administrator role** option is not selected; click the  button.

19. In the Error and Usage Report Settings dialog box, ensure that neither option is selected; click the  button.

20. In the Ready to Install dialog box, click the  button; this process could take 5-10 minutes to complete.

21. In the Setup Progress dialog box, click the  button.

22. In the Completing Microsoft SQL Server 2005 Setup dialog box, click the  button.
