Chapter 3-Exercise H

Rules & Routing

☾ Allows to you to create and manage print or copy rule sets for secure printing or copy transactions through control terminals

☾ Rule sets specify conditions under which Equitrac selects documents for automatic processing

Rule Sets and Rules

◖ Only one Rule Set can be applied to each printer queue, port, or physical device

◖ A Rule Set can contain multiple rules

◖ Rules within a Rule Set are applied hierarchically, top to bottom

◖ List the most restrictive rules at the top of the list in a Rule Set
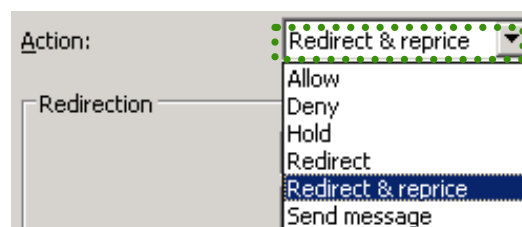

4

Document Monitor Engine (DME) Rules

Rule Actions

◖ If the condition(s) of a rule are met, one of the following actions is applied

◖ Only one action can be defined per rule

Rule Conditions

If multiple conditions are defined, the conditions are treated as an "AND" and all conditions must be met for the action to occur

Rule Sets

If multiple rules are defined, each rule is treated as an "OR"; when the first condition is met, the action occurs
